

## Structure of the MEFANET JLF UK Portal

Educational works published on the MEFANET JLF UK Portal are categorized according to fields of medicine. Content of particular sections of the Portal is displayed through hyperlinks to which there are files of various formats attached, mostly .PDF, .PPT, .HTML, etc.

For easy and quick orientation of Portal users, its structure was designed as shown in Figure 1.

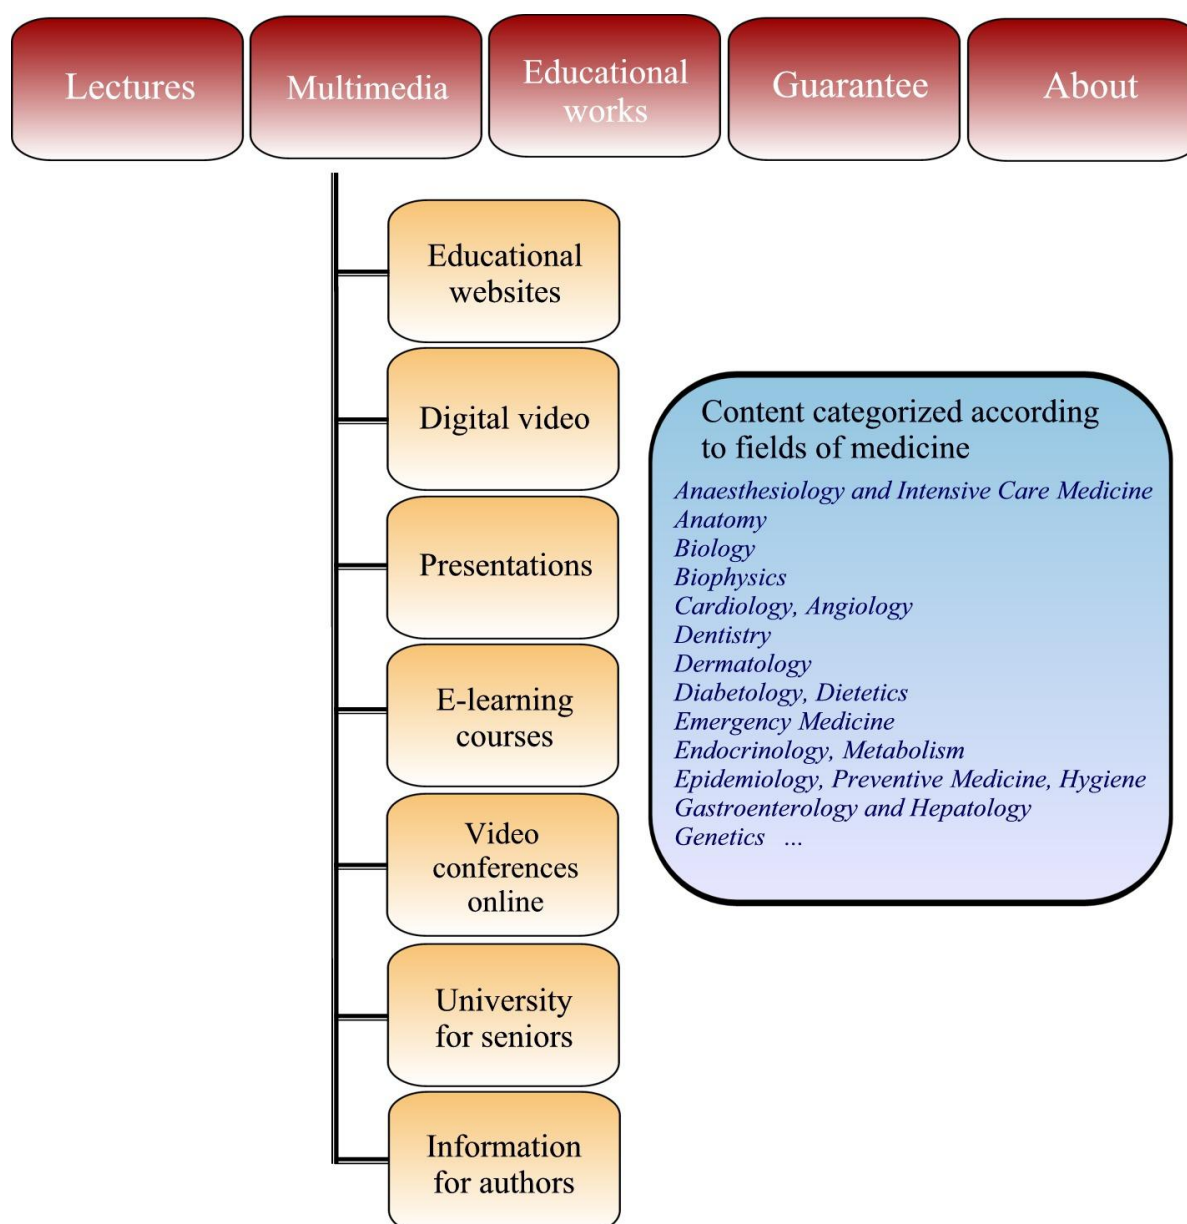

Figure 1. Structure of the Portal

As shown in Fig.1 the MEFANET JLF UK Portal has five sections:

- Lectures,
- Educational works
- Multimedia
- Guarantee
- About

## LECTURES

In this section authors are enabled to publish lecture materials for students as well as other educational materials which suitably complement lectures. Materials are usually in the form of presentations (. PPT) or documents (. PDF).

## MULTIMEDIA

Multimedia teaching materials are either physically located on the server Portal or they are displayed by hyperlink. Hyperlinks are utilized, if it is technically complicated to store the teaching materials directly on the Portal. It concerns mainly the large videos .AVI, . MPG formats, but also special databases, image archives and the like. As well, it applies to e-learning courses, for which the most convenient location is the University e-learn portal – LMS Moodle ( <http://moodle.uniba.sk/> ). Here one can enjoy many other services of that system such as creating tests and self-test for students, creating chat, forums, Wiki, etc.

## EDUCATIONAL WORKS

Educational works placed in this section are comprehensive materials related to at least one of the subjects taught at JLF UK. Publications and author works are published in the same form as printed textbooks, books, etc. In case these extensive educational works are recognized by Editorial Commission of JLF UK, there is also data about opponent people available (e.g. date of reviews and opponents' contact information).

Educational works that are recognized by Editorial Commission of JLF UK, are on the Portal identified by the logo shown below (see Figure 2).
